

MEMORANDUM FOR: Chief, Operations, DDP

**SUBJECT: Certain MIS Sections to
NATO Governments**

1. Attached is a formula which I believe should satisfy your needs and those of the military services. It takes into account the legitimate needs of the military to dispense intelligence materials and favors to their opposite numbers as part of their collection effort. At the same time it provides flexibility to meet joint planning needs which our FI people may have with our NATO friends.

2. I believe that since we have raised this subject in the IAC we should not let the matter drop. If you see objection to this, let's talk it over; otherwise I have in mind to request the IAC Secretariat to call together the representatives of the other agencies again to see if the problem can be worked out along the lines of this formula for subsequent approval of the IAC itself.

**LT. Gen. C. P. Cabell
Deputy Director of Central Intelligence**
